

## WHAT YOU NEED TO KNOW ABOUT OVERDRAFTS AND OVERDRAFT FEES

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts as follows:

- 1. We have standard overdraft practices that come with your account.
- 2. We also offer the following overdraft protection plans, which may be less expensive than our standard overdraft practices, including the following:
  - A line of credit
  - A link to another account

This notice explains our standard overdraft practices.

## What are our standard overdraft practices that come with your account?

We may authorize and pay overdrafts for the following types of transactions:

- Checks, and other transactions using your checking account number
- Automatic bill payments (ACHs)
- Recurring debit card transactions

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to:

- ATM transactions
- Everyday debit card transactions

We pay overdrafts at our discretion, which means we do not guarantee we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

## What fees will I be charged if Riverview Bank pays my overdraft?

Under our standard overdraft practices the following fees are imposed:

- We charge a fee of \$35 each time we pay, or return, an overdraft
- The maximum number of overdraft fees that we can assess is limited to five (5) per day
- If the account is overdrawn for more than 5 consecutive days, we also charge a fee of \$5 for each day your account is overdrawn beyond the first 5 days, up to ten (10) business days
